

**1.**

The data below shows economic growth rates, unemployment rates and inflation rates for an economy.

Year	Real output growth rate (%)	Unemployment rate (%)	Inflation rate (%)
2010	2	4	6
2011	3	3	5
2012	4	3	4
2013	5	2	3

All other things being equal, which one of the following is the most likely explanation for the relationship between the rates of growth of real output, rates of unemployment and inflation between 2010 and 2013?

- A A decrease in the money supply. ☐
- B An increase in innovation and productivity. ☐
- C A decrease in the savings ratio. ☐
- D An increase in the current account deficit. ☐

[1 mark]

2.

Which one of the following is an example of a supply-side policy rather than a demand-side policy?

- A An increase in the supply of money. ☐
- B Increased government expenditure on welfare benefits. ☐
- C An increase in export subsidies. ☐
- D Increased government expenditure on education and training. ☐

3.

In recent years, growth rates in the UK have been low and unemployment has risen. For example, in 2012 output was still below its peak of 2008 and unemployment had risen from 6.4% from 7.8%.

Evaluate the view that a reduction in UK unemployment is best achieved through the use of supply-side policies.

[25 marks]

4.

Extract C (lines 2–4) states: ‘...the Prime Minister, Boris Johnson, had promised to make the 2020s a “decade of prosperity and opportunity”. If this is to be achieved, it will be essential to find ways to boost both short-run and long-run growth’.

Use the extracts and your knowledge of economics to evaluate different policies that can be used to increase the long-run rate of growth of the UK economy.

[25 marks]

5.

After a period of inflation below the target rate, the Consumer Price Index (CPI) inflation rate was recorded as –0.1% in early 2015. The Governor of the Bank of England wrote: ‘A temporary period of falling prices, driven by large adjustments in a few specific components of the CPI, is a fundamentally distinct phenomenon from ‘deflation’...The UK is not experiencing ‘deflation’.’

Explain the possible causes of deflation in an economy.

[15 marks]

6.

Extract F (lines 4 – 6) states: ‘some are now arguing that further improvements in the unemployment statistics can only be gained through improvements in the supply-side of the economy, rather than relying on demand.’

To what extent do you agree that a further reduction in the UK’s unemployment rate is most likely to be achieved by improvements in the supply-side rather than the demand-side of the economy? Use the data and your own knowledge of economics, to justify your answer.

[25 marks]

7.

It is now nearly a decade since the financial crisis caused a recession in the UK. In March 2009, the Monetary Policy Committee (MPC) set the UK Bank Rate at 0.5%, which was a record low, in order to stimulate economic growth.

Discuss the importance of low interest rates in bringing about sustained economic growth in an economy such as the UK.

[25 marks]

8.

The Office for Budget Responsibility (OBR) forecast that government spending would account for 36% of GDP by 2020 compared to 45% of GDP in 2010.

To what extent do you regard a contraction of the public sector to be beneficial for the UK economy? Justify your answer.

[25 marks]

9.

The Office for Budget Responsibility (OBR) forecast that government spending would account for 36% of GDP by 2020 compared to 45% of GDP in 2010.

Explain the economic reasons for government spending.

[15 marks]

10.

Extract B (lines 17–19) states ‘India still protects its economy with anti-dumping measures and export subsidies that are designed to promote economic growth.’

With the help of a diagram, explain how export subsidies may help promote economic growth in India.

[9 marks]

11.

Extract F (line 21) asks: ‘Why are productivity rates in other economies important for the UK?’

Using the data and your knowledge of economics, evaluate the significance of productivity improvements in the UK **and** in other EU economies for the performance of the UK economy.

[25 marks]

12.

Explain the term ‘foreign direct investment’ (**Extract E**, line 7) **and**, with the help of a diagram, analyse how foreign direct investment **and** improvements to infrastructure may boost productivity.

[9 marks]

13.

Extract C (lines 21 – 22) states: ‘Any kind of deal between the EU and ASEAN economies is still a long way off, and the UK must wait to see how new trade deals affect its macroeconomic performance.’

Using the data and your knowledge of economics, evaluate the extent to which international agreements to increase free trade are likely to be beneficial to the UK’s macroeconomic performance.

[25 marks]

14.

The Government has ruled out the possibility of a rise in VAT before 2020 but other indirect taxes may increase. It has also stated that the personal income tax allowance will be increased from £10 800 in 2015/16 to £12 500 by 2020, and plans to cut the main rate of corporation tax from 20% to 17%.

Explain how changes in both government spending **and** taxation might affect the level of economic activity.

[15 marks]

15.

Explain the term ‘comparative advantage’ (**Extract B**, line 17) **and**, with the help of a diagram, analyse **two** causes of increased globalisation in the world.

[9 marks]

- 16.** The Government has ruled out the possibility of a rise in VAT before 2020 but other indirect taxes may increase. It has also stated that the personal income tax allowance will be increased from £10 800 in 2015/16 to £12 500 by 2020, and plans to cut the main rate of corporation tax from 20% to 17%.

Evaluate the economic consequences for the UK economy of a significant shift in the burden of taxation from direct taxes to indirect taxes.

[25 marks]

- 17.** The UK has seen significant changes in its pattern of trade with the rest of the world in terms of what we trade and with whom. The UK's current account deficit widened from £29.1bn in 2011 to £100.2bn in 2015. The deficit in 2015 was 5.4% of GDP, the largest annual deficit as a percentage of GDP since records began in 1948.

Evaluate the measures that might be taken to reduce a deficit on the current account of the UK's balance of payments.

[25 marks]

- 18.** Between 2011 and 2016, UK unemployment fell from a high of 8.5% to 4.8%. Some argue that government attempts to reduce unemployment inevitably lead to trade-offs with other macroeconomic policy objectives.

Explain how government policies can reduce the natural rate of unemployment.

[15 marks]

- 19.** **Extract E** (lines 9–10) states 'Improvements in productivity on the supply side of the economy could actually lead to more deflation.'

With the help of a diagram, explain how improvements in productivity could cause deflation.

[9 marks]

- 20.** **Extract F** (lines 19–20) states 'What is not clear is what should be done if low inflation turns to bad deflation.'

Using the data in the extracts and your knowledge of economics, evaluate the view that monetary policy is the most effective way of tackling deflation in developed economies such as the UK and Japan.

[25 marks]

- 21.** **Extract C** (lines 2–3) states 'More recently, India has begun to use more market-based strategies to help its development, including liberalising trade and privatisation.'

Using the data in the extracts and your knowledge of economics, evaluate the view that greater use of market-based strategies is the best way to improve the economic development of India.

[25 marks]

- 22.** In the 2016 Autumn statement, the UK Chancellor of the Exchequer, Philip Hammond, officially abandoned the government's policy of trying to achieve a budget surplus by 2020. While some criticise the government for failing to achieve its fiscal target, others argue that the government should be doing more to help the supply side of the economy.

Explain how fiscal policy can be used to try to improve the supply side of an economy.

[15 marks]

23.

All other things being equal, an increase in the ratio of capital to labour resulting from an increase in investment is most likely to lead to a

- A decline in labour productivity.
- B fall in the size of the labour force.
- C negative demand-side shock to the economy.
- D supply-side improvement.

24.

An African Development Bank report showed that Angola received more direct foreign investment than any other African country in 2015. Angola is a less economically developed country (LEDC) that has had fluctuating economic growth in the past. Despite having suffered from a long civil war which ended in 2002, many multinational corporations (MNCs) are now investing heavily in Angola's growing economy.

Evaluate the view that MNCs play a positive role in the development of LEDCs.

[25 marks]

25.

An African Development Bank report showed that Angola received more direct foreign investment than any other African country in 2015. Angola is a less economically developed country (LEDC) that has had fluctuating economic growth in the past. Despite having suffered from a long civil war which ended in 2002, many multinational corporations (MNCs) are now investing heavily in Angola's growing economy.

Explain the main barriers that LEDCs face when attempting to achieve stable, long-term economic growth.

[15 marks]

26.

The diagram below shows the aggregate demand (AD) curve, the short-run aggregate supply (SRAS) curve and the long-run aggregate supply (LRAS) curve for an economy. The economy's initial equilibrium is at E_1 .

The government wants to achieve economic growth without conflicting with its long-run objective of price stability. All other things being equal, which one of the following policy combinations is most likely to enable the economy to achieve a new long-run equilibrium at E_2 ?

- A A reduction in interest rates and increased government borrowing. ☐
- B A reduction in the budget deficit and the rate of growth of the money supply. ☐
- C Increased government expenditure on apprenticeships and transport infrastructure funded through borrowing. ☐
- D Increased government expenditure on welfare funded through higher indirect taxes. ☐

27.

In the past few years, CPI inflation has often differed by more than 1% from its 2% target. In the winter of 2015 the UK experienced a brief period of deflation but, more recently, inflation has been over 3%.

Evaluate the view that inflation is always preferable to deflation.

[25 marks]

28.

Since 1998, the Bank of England has had responsibility for the operation of monetary policy and maintaining price stability. In response to the financial crisis of 2007–08, the Financial Services Act 2012 gave the Bank of England overall responsibility for financial stability. This was designed to reduce systemic risk and the impact on the real economy of problems that arise in financial markets.

Evaluate the view that strict rules and regulations on financial markets are essential to help create a more stable economy.

[25 marks]

29.

Extract C (lines 13–14) states: 'Some argue that African governments should be doing more to improve the living standards of their citizens, rather than relying on foreign firms.'

Using the data in the extracts and your knowledge of economics, assess the view that to improve the living standards of their citizens, African nations should pursue policies to attract foreign direct investment (FDI).

[25 marks]

30.

Extract F (lines 7–8) states: 'Economists said the data reinforced the view that the slump in South Korea's trade-reliant economy would continue beyond this year'.

Using the data in the extracts and your knowledge of economics, evaluate policies which could be used to boost South Korea's exports and increase its trade surplus.
